

COMMON LAW REVIEW ANNOUNCES CALL FOR PAPERS

FOR ISSUE NO. 16 “LAW IN THE ERA OF DIGITALIZATION”

We are living in a globalized and modern world full of exceptional possibilities and countless choices. A new era in which technologies and computers have become a part of our everyday life. With these new opportunities unexpected challenges arise, and they need to be dealt with. That is a challenge for law, future legislation and practice.

Among all above mentioned, theory, academic discussion and science with properly executed research are very important for dealing with every new problem. Therefore, we would like to introduce you this call for papers, which should cover all main questions connected to the debated issue. Also, feel free to propose your own topics, however please note that they need to reflect a topic connected to digitalization, IT law, etc.

If we catch your fancy, please contact us before you start writing your article and provide us with your application no later than **14 April 2019**. We need to make sure that several authors do not choose to write on the same topic. The suggested themes below are fairly broad, so we also want to discuss the precise direction of your article with you.

PUBLIC LAW SECTION

- 1) Artificial Intelligence and Law: Will Judges Run on Punch Cards?
- 2) E-government, E-voting, E-administrating: Joys and Perils of Digital Citizenship.
